Secretary Henry Smith of the Honolulu Fire Department gives notice that the first election for engineers, under chapter 45 of the laws of 1888, will be held on December 24.

The Postoffice received per Australia from San Francisco 41 bags of mail containing 8,631 letters and 9,625 prints or newspapers, a total of 18,256 pieces for the willing workers in the Postoffice to handle.

Mr. S. F. Browne, of the U. S. S. Nipsic, received news by the Australia last week of the death of his mother, Mrs. S. H. Browne, which sad event occurred at the family home in Columbia, S. C., on the 3d inst.

The "regular order of business," the first official free pass, good for any train of the day, was presented to the advertiser Friday by Mr. B. F. Dillingham. Manager Ben knows the difference between a pen and a holder.

A Board of Survey, consisting of Captains Fuller, McIntyre and Mr. Thos. Sorenson have partly examined the bark Matilda and report that they find the vessel is now leaking at the rate of six inches per hour and that other damages require a further examination.

The news has been received by this mail of the death in Alameda, Cal., of Mr. Willie Smith, a young man of considerable promise and who was well known here. Deceased was a brother of Mr. Geo. S. Smith of the firm of Benson, Smith & Co., druggists, of this city.

Pursuer Kiel of the Australia reports that that vessel sailed from San Francisco on the 8th inst., at noon with fifty-seven cabin and sixty-two steerage passengers, 1,775 tons merchandise and \$40,250 treasure. Encountered fine weather and smooth sea the entire voyage.

And here comes the watercart, full to the bung, scattering water around the same as though there hadn't been any rain for a month. The mud was just getting dry enough to allow one to cross the street, when the cart stirs up the muddy pools and makes the streets as bad as they had been for several days past. Do wait, till the clouds roll by.

A billiard match for \$50 a side was played Friday night at the Bowen billiard parlors, between George Howe a well known local amateur, and the proprietor J. P. Bowen. The game was French caroms 1,000 points by Bowen to 750 by Howe and was finally won by Bowen the score standing 742 to 1,000. The game ended amid considerable excitement.

A number of well known residents returned by the Australia, the planting interests being represented by Messrs. H. Rickard, J. Marsden, R. S. Horner, A. Lygate, and G. N. Wilcox; the local business by Messrs. C. E. Williams, J. F. Colburn, and A. J. Cartwright, Jr.; the building interests by E. B. Thomas; the professional by Rev. W. H. Barnes and Dr. Grossman, and the sporting by Harry Agnew. All look well.

## Wileox has gone to Maui.

The steamer Akamai is now advertised to run regularly to certain ports in Kauai.

Both newspapers are agreed on the one question of clean streets. Who cares?

The merry-go-round will now swing itself and patrons around a circle situated on Hotel street, near the corner of Nuanu street. It would seem as if the location was not in accord with the convenience of the public.

The roar of the surf could be plainly heard in town yesterday and a look to seaward showed the dashing waves broke high, a line of white foam being distinguishable from the harbor entrance to off of Pearl river.

The wooden buildings, formerly occupied by the Royal Saloon, situated on the corner of Merchant and Nuanu streets, were sold at auction Thursday noon, by Mr. Levey, to Messrs. Walker & Redward for \$100.

There is no doubt a plentiful supply of water but it does look ridiculous to view sprinklers in the Government yard, right in view of the Water Works office, going with full force during the heaviest of late continued rains.

The choice seats on the tram-cars were not in the near vicinity of the drivers. Those worthies carried a plentiful supply of mud from daylight to dark, voluntary contributions from the hoots of their companions in misery.

A teacher's meeting was held at Makapala, Kohala, Hawaii, Saturday, November 1st. Topic for discussion was "Difficulties of school management in the Hawaiian schools." All were stimulated for future work, as well as profited by the pleasant interchange of thought. Subject for the next meeting, "Drawing."

An Early Morning Blaze.

At 2:30 o'clock on Sunday morning an alarm was rung in from Ward 11, Punahoa, the cause being a fire in a one story small wooden house, occupied by John Boutille, an employee of the Hawaiian Tramways Co. As is usual in the case of a fire in the outer districts, the house was burned to the ground, a few of the contents being saved; loss \$300. Engine Company No. 2 rolled out but did not get to the fire, the only persons there present from town, being a hack driver and a representative of the ADVERTISER.

## PROF. SAUVLET'S CONCERT.

A Brilliant Performance Before a Fashionable Audience.

One of the events of the season, and which has been looked forward to with considerable interest by the music-loving public of this city, was the concert under Prof. Sauvlet's management and which took place on the evening of the 16th inst., at the Music Hall. The audience present at the commencement of the performance was the most fashionable and representative, of the elite, that had graced the theatre before for many a day, and the hearty appreciation of the different numbers, showed a high class of musical culture. His Majesty, H. R. H. Princess Liliuokalani and Hon. A. S. Cleghorn occupied the royal box with Mr. and Mrs. W. G. Irwin and Mr. and Mrs. F. M. Hatch as a vis a vis in that of the managers.

The performance was opened by the Hawaiian Band, under the leadership of Professor Berger, they playing an overture, "La dame Blanche," by Boieldieu. The instrumental performance received deserved applause. The next piece introduced to the public, Professor Sauvlet, in a piano solo, "Concerto," by Weber. The Professor was accompanied, on a second piano, by Miss Carrie Castle and a quintette by Messrs. Yarnley, Dr. Day, J. F. Brown, D. Naone and Prof. Berger. This piece was the gem of the evening and the applause fully testified the opinion of the audience. Professor Sauvlet's manipulation of the fine toned Bernstein piano showed that he was a master pianist and took his place among the first in that rank. Connoisseurs, and there were many present, were loud in their praises of the ability displayed in the Professor's performance, the grace of touch and rhythm of movement, being apparent to even the least musical. Miss Castle's accompaniment was in excellent accord as also that of the quintette. The next number, a duet sung by Misses Dora Dowsett and Mabel Rhodes entitled "Aime c'est vivre," by Campana was excellently voiced. Prof. Sauvlet performed another piano solo being followed by a song "Das Herz am Rhein," sung by Mr. P. Isenberg, Jr. A composition by Prof. Sauvlet entitled the "Meiji March" and dedicated to H. I. M. the Emperor of Japan was next performed. Two pianos were used, Miss Carrie Castle and Miss Katie McGrew and Master Tarn McGrew and Prof. Sauvlet being the performers. The applause which greeted the players at the close was very enthusiastic and well deserved. Prof. Sauvlet performed, under one number, two piano solos; the first by Scharwenka entitled "Polnische Nationalhymne," the second a "Gavotte," a composition by the performer. The interpretation of Scharwenka's composition was excellently well given. The "Gavotte" was peculiar in the marked movement and promises to be popular. Miss Mabel Rhodes warbled very sweetly. Kucken's "Heaven hath shed a tear," Mr. Yarnley's violin accompaniment adding to the beauty of the composition. Maupoon's "Berceuse" was sung by Miss Dora Dowsett, accompanied by Mr. Yarnley, violin, Mr. M. H. Jones organ, and Prof. Sauvlet piano. Again Professor Sauvlet presented his mastery manipulation of the piano, in two pieces the one "La Gazelle" by Hofmann, the second a "Gavotte" of his own composition. As usual his performance received merited applause. A septette consisting of Messdames J. H. Paty, J. F. Brown, and Misses Patch, Parke, Dowsett, Nolte and Rhodes, sweetly sung Rossini's "Charity," solo parts being taken up by Miss Patch, Miss Nolte and Mrs. J. H. Paty. The grand concert was brought to a close by the performance by the Royal Hawaiian Band of the composition "Kalaikaua March" dedicated to His Majesty by Prof. Sauvlet and arranged for the band by Prof. Berger.

The concert was in every way a success and Prof. Sauvlet cannot but feel flattered at the reception given him by the music-loving people of Honolulu on the occasion of his first appearance among them in public.

Fun Ahead.

The Ray Brothers, Australian comedians, arrived here lately and are on their way to San Francisco. They will give a series of performances at the Hawaiian Opera House during their stay.

The Ray Brothers have played in their specialties in all the large cities of the world, to large audiences and have supported many of the leading stars that have visited Australia. Mr. Augustus Ray has performed with Miss Genevieve Ward, W. H. Vernon and Geo. Rignold. Mr. Phil Ray has recently concluded an engagement with the famous John F. Sheridan combination. The piece the Ray Brothers will open in is entitled "Our Governors," and was written for them by Garnet Walsh, Esq., of Melbourne, Australia.

From the South Seas.

Letters received from Butaritari mention the arrival of Robert Louis Stevenson and party at that island, July 17th, where they remained three weeks. They went on to Apemama, where the vessel was to pick them up and take them to Samoa. The King's birthday, July 6th, was characterized by such an outbreak of drunkenness, after months of prohibition, that the people expelled the rum-sellers from the islands. The United States Consular agent there, with his wife, seem to have won the respect and good-will of the natives by friendly and helpful intercourse. The King does not seem to take much interest, however, in the education and elevation of the people.

Hotel Arrivals.

M de d'von Amerline, Austria; C. Arneiman and wife, Germany; Mr. and Mrs. W. Crocker, Master F. W. Crocker Jr., Boston; Mrs. Walbridge, San Francisco; Geo. A. Boodwell, San Francisco; J. Marsden, Hawaii; H. S. Rickard, Hawaii; M. E. Grossman, Honolulu; Mrs. A. G. Burchard, Maui; Miss Rathbone, Maui; Mrs. L. Kermany and child, Lebanon, Penn; Dr. A. Loute, Honolulu; T. F. Larseny, wife and 2 children, Honolulu; Peter MrBride, Melbourne, Australia; W. Baretton, H. R. Stokes, Australia; Robt. Halstead, Waialua; M. A. Anderson, U. S. N.; E. B. Thomas, from Paris.

At the sale of lots belonging to H. R. H. Princess Liliuokalani, the hammer was dropped on only three sales.

## THE MECHANIC'S UNION.

An Exhaustive Debate on a Proposed Platform.

The usual weekly meeting of the Mechanics and Workmen's Political Protective Union took place on Friday at Knights of Pythias Hall. There was a very good attendance, the native element predominating. President Phillips called the meeting to order and acting secretary, W. H. Simms, read the minutes of the previous meeting and which were approved. The resignation of Mr. Frank Godfrey, as Secretary of the Union, was read and accepted.

Nominations were now had for secretary to fill the vacant position and Messrs. W. H. Simms, W. H. Stone and J. Emanuel became candidates the election resulting in the appointment of Mr. Stone, who immediately assumed the duties of the office. A vote of thanks was tendered to Mr. Simms for his services as secretary pro tem. The executive committee now presented a platform for the consideration of the Union the principal planks of which were: 1st, that the chief officers of the Government be elected by the people; 2d, that personal taxes be reduced; 3d, that the income and property qualification for voters for nobles be abolished; 4th, that Chinese immigration be better regulated.

The discussion on the first article of the proposed platform showed a diversity of opinion even amongst the framers; Messrs Phillips and Mehtrens believing that the Judicial body was not included, while others thought different. The discussion although lasting until nearly 11 o'clock resulted in no definite action and debate will be continued on this first plank at the next meeting. The meeting was quite orderly and well conducted and adjourned at about 11:15 until next Friday.

## HEARINGS IN CHAMBERS.

MONDAY, NOV. 11.

BEFORE HIS HONOR JUSTICE DOLLE.

W. C. Parke assignee vs. C. O. Berger. Assumpsit. Appeal from Police Court of Honolulu. Case argued and decision reserved. Cecil Brown for plaintiff; W. A. Whiting for defendant.

## Progress.

The new Kauai Sugar Co. ordered by telegraph Sunday, by the Zealandia from England, two of the largest size steam plows from Messrs. John Fowler & Co. This is an evidence that the company are beginning work in good earnest. The Speckels' estate on Maui are running two steam plows of a similar size purchased from the same maker. Mr. Baldwin and Mr. Walsh the manager, arrived Sunday from Kauai.

A Curious Application of Electricity.

Electricity would probably be described by a modern Shakespeare as "playing many parts." Now it is used as painlessly performing a medical operation, another time to blow up a Czar's palace; now to light up large docks, at another time to boil a kettle. We hear of an instance in which it was used to procure the destruction of a mule by gun cotton, and at the same time to assist in obtaining an instantaneous photograph of the proceeding. The operation was conducted by the Engineer School at Willet's Point, New York, the arrangement of the apparatus, etc., being as follows: The mule was placed in proper position before a photo camera and duly focussed. Upon the animal's forehead a cotton bag was tied containing six ounces of dynamite. The slide of the camera was supported by a fuse; the camera fuse and the dynamite on the mule's head were connected in the same electrical circuit, and with a key placed at some little distance off. On pressing the key so as to send a current through the wires, both the fuse and the dynamite were simultaneously fired. The camera slide and the head of the animal fell nearly together. The photo sensitive plate was impressed with a picture of the headless creature, still standing, before its body had time to fall.

Fortunes Left by American Presidents.

A list has been published in the Continental papers of the fortunes left by the American Presidents at their deaths. According to this, Washington left \$800,000; John Adams, \$75,000; Jefferson died so poor that had Congress not bought his library for \$20,000, there would not have been enough to pay his debts; Madison left \$150,000; Monroe left nothing, and his relations had to bear the cost of his funeral; John Quincy Adams left \$55,000; Jackson, \$80,000; Van Buren, \$400,000; Polk and Taylor, \$150,000; Fillmore, \$200,000; Pierce, \$50,000; Buchanan, \$200,000; Lincoln, \$75,000; and Andrew Johnson, \$50,000.

A dispatch from Zanzibar announces that Dr. Peters, the organizer of the German-African Colonization Society, and his party, were massacred. One European, supposed to be Captain Rust, and a native, escaped. The survivors are at Nago. It is not known if the second column of Peters' expedition, which left Viti early in September, was involved in the massacre.

A bill is before the Mexican Congress to make the term of President of the republic unlimited.

## OUR SAN FRANCISCO LETTER.

(Continued from fourth page.)

## General American News.

British capital under the title of the English Syndicate is still absorbing American property and enterprises at a rapid rate. The agents of the Britishers undertook to corner the whiskey distilleries of the country but failed. Then they began to absorb the big breweries and they are now engaged in buying up big flour mills, water power properties, cheese factories, etc. For milling property recently purchased at St. Paul, Minnesota, the syndicate is said to have paid \$6,250,000.

The trial of the Cronin case in Chicago is progressing slowly and creating a great deal of interest in that city. Contrary to general expectation the State is laying the foundation of a very strong case against the suspects and it is believed that a conviction could be secured. The case will probably be on trial several months. It is reported that several important arrests are yet to be made.

The board appointed to test the dynamite guns of the cruiser Vesuvius have made a favorable report. They say that the guns throw shells containing 200 pounds or more of dynamite a mile with reasonable accuracy.

In his report to the Secretary of War Brigadier-General Miles comments on the defenseless condition of the Pacific Coast and says that San Francisco is liable to capture by any fourth class nation. He declares that there is need for immediate action to provide protection.

The President on Nov. 2d, issued a proclamation admitting North and South Dakota into the sisterhood of States. Washington will be admitted in a few days.

The Central Pacific, Union Pacific, and Chicago and Northwestern Railroad companies have entered into an arrangement by which trains will be run through solid from Chicago to this city. This will leave only one change between New York and San Francisco.

The new cruiser San Francisco was successfully launched on Oct. 26th, and was witnessed by a large crowd notwithstanding the heavy rain that prevailed. The citizens of this city will present the vessel with a magnificent silver service.

Francis G. Newlands and Frederick W. Sharon have purchased lands which give them the control of the waters of Denver Lake and they propose to use the lake as a reservoir from which to irrigate all of western Nevada.

From Elsinore in San Bernardino County, this state, comes a report of the discovery of an immense body of bituminous coal equal to the best Pennsylvania product and sufficient in quantity to supply the whole western country.

The winter began in earnest in Mexico on Nov. 5th, with a freezing snowstorm that has not been equaled in ten years.

The recent State elections show that Massachusetts has gone Republican; New York has elected Democratic State officers, but a Republican Legislature; Mahone is snowed under in Virginia; Ohio has gone Democratic, and Iowa is in doubt, but claimed by the Democrats. Maryland and New Jersey are Democratic, as usual, and Pennsylvania and Nebraska, Republican as usual. Mississippi is believed to have gone Democratic, especially as there was but one ticket in the field.

The Virginia election is remarkable only for the suppression of the negro vote and the triumph of repudiation. Mahone who was defeated, advocated payment of the State's debt, but his opponents do not intend to pay the debt, and that was a leading issue.

The Secretary of the Navy has awarded to Harrison Loring of Boston the contract for constructing cruiser No. 11 of 2000 tons for \$674,000 to be completed in two and one half years.

The report of Third Auditor Hart deals with army and pension claims and shows the work up to the end of the year, and accounts approved, involving many billions of dollars. He estimates that by June 30th, next the number of pensioners will exceed 525,000, being a gain of 35,000 during the year and that at least \$100,000,000 will be required annually to pay them. He approves of the present liberal and humane treatment of pensioners.

The government has finally accepted this cruiser Charleston. The question of penalty is yet to be decided.

The Carson, Nevada Appeal of October 20th contained a letter from Thomas Edison to Major Frank McLaughlin, Vice-President of the Pacific Phonograph Company. It was dated London, September 23d, and came on a phonographic cylinder. The cylinder was secured by the Appeal and the letter put in directly from the phonograph, the compositor setting it up from sound. This is the first practical application of the phonograph in the composing-room ever made on the coast. The compositor said he could set faster from the phonograph than from manuscript.

The Oregon and Transcontinental Railroad Company is winding up its affairs and will go out of business. The capital stock is \$30,000,000.

Among those supposed to have gone down with the wreck of the Alaskan, which foundered off Cape Blanco on the 13th of May, was Charles Albert, a son of Mrs. A. Mooney of Oakland. When the vessel went down he floated on a piece of the wreckage for seven days, sustaining life with a can of peaches

which he had provided himself with. At length when nearly dead he was picked up by the bark Kittie, lumber laden from Portland to Hongkong. After a tempestuous voyage in which their masts were nearly carried away, they arrived in Hongkong on the last of August, from where he wrote to his mother.

Recent exposures of the operatives of the opium ring show that that organization has swindled the government out of \$500,000 during the past year.

A. S. Teele, the Los Angeles defaulter who skipped out with a woman and \$40,000, leaving a wife and two children has been located in Toronto, Canada.

Foreign News.

Minister Denby has notified the State Department that the Chinese emperor has signed a decree sanctioning the construction of a grand trunk railway from Hankow to Peking.

On November 23 thirty operatives were killed in Glasgow by the falling of a wall of the building.

Four new armored battle-ships of 10,000 tons each have been ordered by the German Government. One will be built at the Imperial yard at Kiel, one at the Government at Wilhelmshaven, and two by the Vulcan Company at Stettin.

A British Columbian mine owner says the people of his province are practically unanimous for annexation to the United States, believing it would stimulate the development of the country. The record of a century proves that. If Vancouver and Victoria were American ports the Chinese question would be greatly simplified; also, the question of commercial dominance on the Pacific. The British Columbians, however, must make the first move.

The following telegram has been received from Zanzibar, dated Nov. 1st: I have received a letter from Stanley, dated Victoria Nyanza, August 29th. Stanley has with him Emil Pasha, Casati Marco, a Greek merchant, Osman Effendi, Hassan, a Tunisian apothecary, Lieut. Stairs, Dr. Parke, Nelson, Jephson, Bonny and 800 people. All were well. Wadelai is in the hands of the Mahdists.

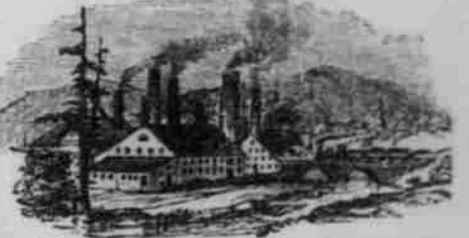

The French Chamber of Deputies has voted an extraordinary credit of 58,000,000 francs for the purpose of immediately constructing three iron-clad coast defense vessels, four torpedo boats, ten sea going torpedo boats and thirty torpedo boats of the coast defense style.

Regarding the Behring Sea trouble a London dispatch says: American rumors that the Behring Sea dispute will be submitted to arbitration are adversely commented upon by the majority of the press here. The newspapers declare England will not admit that Behring Sea is a mare clausum, whatever may be affirmed by a committee of arbitration. They contended and assert that the contention is worth serious consideration; that England might just as well claim exclusive rights in the English Channel, and then offer to submit the matter to arbitration.

A London telegram says that in Zanzibar the buying and selling of slaves is carried on in the city without any particular effort toward concealment. The ordinary prices for the females ranges from \$30 to \$50 according to the age. The merchants are Arabs, but they are said to be backed by English traders.
